

To download The Bridge App, visit either the Apple App Store or Google Play Store, and search for 'The Bridge App'. You can recognize the correct app by its logo and by the name of the developer, Extreme Technology.

Once you launch The Bridge App, you will be prompted to create a user account (your email address) as well as a unique, personal password. If your church is using The Bridge App and has uploaded their membership data with your email address, you should be automatically connected to your local church.

If you are not automatically connected to your church, you will be asked to **SELECT A HOME CHURCH**. Enter the name of your church in the white locator field and click on the **MAKE MY HOME CHURCH** message on the **HOME** screen. You will be asked if you are already a member and if you would like to request membership access. A request will be sent to your church to review your request. Once approved you will have access to all your church's data.

“Let us consider how we may spur one another on toward love and good deeds... encouraging one another.”
