

# WORLD RENEW DRS SUNDAY

## Blue Skies

When a natural disaster hits, clouds are looming and after the storm, the need is obvious. But what about when skies are blue?

Maybe you've asked yourself:

Is there work to be done when the sun is shining?

Do people really still need help when the weather is nice?

Are my donations needed even if there hasn't been a disaster recently?

**The answers are Yes. Yes. And Yes!**
