

A PRAYER FOR FARMERS NEAR AND FAR

Francis lives in a small Bangladeshi village with his mother, sister, niece, and nephews. His earnings as a farmer are used to provide for his entire family, but in recent years, it has not been enough to cover the costs of all their needs.

Francis was introduced to World Renew when the Food Security Project was implemented in his community. Through World Renew's partnership with Foods Resource Bank (FRB), he was able to participate in training to learn new agriculture techniques such as composting and kitchen gardening.

Francis quickly applied what he learned in the training to his field and has already planted beans, pumpkin, and chili in his kitchen garden. The new vegetables are providing nutritious food for his family to eat. Francis looks forward to the day his family no longer has to struggle to make ends meet.

World Renew's agriculture program in Francis' community is funded in part by FRB. Through World Renew and FRB, subsistence farmers end the weeks and months of hunger, they can experience from year to year. Your prayers and financial support are vital for their futures.

On FRB Sunday, please give generously to help replenish World Renew's fund with FRB. Your gifts are a source of hope for farmers in need.

World Renew and Foods Resource Bank partner to provide agriculture programs to subsistence farmers in impoverished communities around the world. Your donations replenish World Renew's fund with FRB and are used to support farmers in need.

Lord, you have created this world and everything
in it. We thank you for farmers who grow our
food and for the soil, sunshine, and rain that
you provide to make that food grow.

May we never forget that you are
the source of every good thing.

Be with the small-scale farmers around our
world who struggle to support their families.

Be a source of hope for them as they prepare their
soil, plant their fields, and harvest their crops.

Help us to sow seeds of that hope
through our actions and our gifts.

In Jesus' name, amen.
