

CONGRATULATIONS

Congrats to Lisbeth Pino, PhD (C) on her successful Comprehensive defence!

Title: A Narrative Review of the Oppression of Single Mothers in Highland Ecuador

Supervisor: Dr. Joy MacDermid

Examiners: Dr. Laura Brunton, Dr. Samantha Doran

Program: Health Promotion

With special thanks to:

As the campus pastor/chaplain at Western, I've had the delightful opportunity to meet and work with Lisbeth Pino during her studies. Coming to Canada to pursue her educational calling has been a significant challenge. Will you help me raise awareness as widely as possible about this research opportunity for any single mothers in your networks? Thanks!

Rev. Michael Wagenman, PhD

Western University

mwagenman@uwo.ca

Hi! My name is Lisbeth Pino. I have a heart for single mothers since I was raised by a single mother myself. My home country is Ecuador. I came to Western to do research on how to help single mothers maintain healthy lives. I am looking to find single mothers in Canada, who speak fluent English and are over the age of 18, and who have dependent children living in the home.

If you can spare an hour for an interview over Zoom, I would really appreciate it!

You can call me at (226) 582-5501 or email me at lpino2@uwo.ca.

Thank you!

Lis

Can you help an international Christian student at Western complete her research?

Participants Needed for Research Study: Health-promoting Behaviours

This study will help gain a better understanding of the health-promoting behaviours that have been recommended for preventing COVID-19, as well as for maintaining general health.

Do you meet the criteria?

1

I am a Canadian single mother who can speak fluent English

2

I am over the age of 18

3

I have dependent children living in the home

Volunteers will be able to provide informed consent to answer a 60-minute questionnaire over a Zoom interview

Principal Investigator: Joy MacDermid, PhD
