

Raise Up Global Ministries began as three separate organizations that are now combined together to expand both capacity and reach. Each organization engages a different audience with relevant programs and curricula. This creates a solid, consistent, connected global foundation of trained leaders. Under one umbrella, we can do more to spread the gospel all around the world.

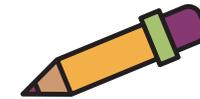

Raise Up Global Ministries is committed to developing Christian leadership around the world to spread the gospel through biblically-based leadership training programs, strategic partnerships, and supporting curriculum. Our three ministries are:

Using the Timothy Leadership Training Program materials, Raise Up Church Leadership has existed for over 20 years with the mission of seeing healthy churches worldwide flourish and transform their communities under the leadership of those who have been equipped through accessible, high-quality training. Program leaders have come from over 40 countries, from Africa, South America, Asia, and Europe. In order to be useful in such a diverse range of locations the curriculum has been translated into a total of 26 languages, and more are in process. This year we translated our materials into 6 new languages.

Using the Discover Your Bible study curriculum, Raise Up Church in Community gives people the tools to read, understand, and dig into what the Bible says and means. Whether someone is familiar with the Bible or has never picked one up before, this program is simple, easy to understand, and applicable. Groups are set up to encourage participants to ask questions, share observations, and experience for themselves God's love in an informal small group setting.

Using the Educational Care training program, Raise Up Educator Development encourages and assists educators and schools with limited resources by giving them an opportunity to develop skills and strategies of education that honor God, His creation, and the children in their classrooms. Over the past 4 years, 2,040 educators have participated in Educational Care Training, affecting over 400,000 students. These educators have come from over 20 countries.
