Join the BC Christian Reformed pastors, staff, church leaders and community as we sit down with Jay Stringer to discuss how sexual shame can be a roadmap to healing.

Unwanted sexual behaviors like the use of porn, extra-marital affairs, and the abuse of power are rampant within and outside of our churches.

While the local church could and needs to be one of the most equipped and safest places to understand our relationship to sex, it has too often become a place marked by silence or behavior management.

In this webinar you will learn:

- *The origins of unwanted sexual behavior*
- *Why men and women stay in self-destructive behaviors*
- *Resources to guide your church to freedom*

*“Supporting our Churches in
Cultivating Safe Communities & Conversations”*
